PREFACE

This, the twenty-first annual *Data Book on Illinois Higher Education*, provides ten chapters of information on public and private colleges and universities in Illinois. The information is compiled from data reported by Illinois institutions in studies conducted or coordinated by the Board of Higher Education staff. While the staff is responsible for the accuracy of the compilation, the validity of source data depends upon institutional submissions. Both credit and thanks are due to the individuals at each public and private institution who complete the surveys. In many ways, the usefulness of this document is due to the accuracy and timeliness of their responses.

Changes have been made to the *1994 Data Book*. The following institutions have ceased offering degrees or closed and have not submitted data since the 1993 *Data Book*: KAES College, Phillips College, St Sava Serbian Orthodox Seminary and Chicago City-Wide College of the City Colleges of Chicago. One institution was added : St. Sava Serbian Orthodox School of Theology. The names of the following two institutions have changed: 1) University of Health Sciences/Chicago Medical School has changed to Herman M. Finch, University of Health Sciences/Chicago Medical School and 2) Chicago College of Osteopathic Medicine has changed to Midwestern University.

One objective of the *Data Book* is to provide useful combinations of data about higher education in Illinois. Suggestions are welcome for improvements that will make this publication more useful. Much of the data contained in this book is in computer readable form. Readers desiring new combinations or details that are not presented in this book are invited to contact the Board office.

INTRODUCTION

The *Data Book on Illinois Higher Education* is intended to provide a general reference for the reader seeking an overview of Illinois higher education. Although some tables provide information for certain categories of institutions only, the overall survey universe includes all Illinois institutions of higher education having degree-granting authority and those with operating authority that have applied for authority to grant degrees. While this year's survey universe included 184 institutions, two limited-purpose institutions did not respond to the Fall Enrollment Survey, and several private institutions did not respond to various other Integrated Postsecondary Education Data Systems (IPEDS) surveys.

Institutional Classification

To allow for meaningful summaries of data, surveyed institutions have been categorized according to purpose and financial structure. The current institutional classification system organizes these institutions into five categories: public universities; public community colleges; private, not-for-profit, multiple-purpose institutions; private, not-for-profit, limited-purpose institutions; and proprietary institutions. Limited-purpose institutions are those offering specialized programs of study in professional, theological, or technical fields. Proprietary institutions are those institutions whose financial structure is organized on a for-profit basis.

Data Sources

Information for the *Data Book* is compiled from a number of surveys conducted by the Illinois Board of Higher Education (IBHE) and from the federal Integrated Postsecondary Education Data System (IPEDS) surveys coordinated by the IBHE. The IBHE serves as the state coordinating agency for IPEDS Surveys. Principal among these are the following:

IBHE Fall Enrollment Survey. The Illinois Board of Higher Education's annual Fall Enrollment Survey is a comprehensive survey covering various aspects of student enrollment. Data from the fall 1993 survey provide the basis for Chapters I through V of the *Data Book*. Enrollment breakdowns, such as institutional headcount by level of instruction, appear in Chapters I and II. Chapter II summarizes student characteristics data providing enrollment by gender, race, age, and geographic origin. Chapter III summarizes trend data for various years. Chapter IV summarizes enrollment by academic program for public universities. Finally, data from the Fall Enrollment Survey on transfers among Illinois institutions are summarized in Chapter V.

IBHE Degrees Conferred Survey. The Illinois Board of Higher Education collects information on the number of degrees conferred annually. Chapter VI of the *Data Book* presents information about degrees conferred by institution, field of study, gender, and race/national origin group for FY1993.

IPEDS Salaries of Full-Time Instructional Faculty Survey. Chapter VII summarizes staff data from the 1993-94 IPEDS Salaries Survey. This annual survey provides data on the number and gender of full-time instructional faculty at public universities, public community colleges, and private institutions of higher education and on salaries earned by these faculty.

IBHE Resource Allocation and Management Program (RAMP). The Illinois Board of Higher Education's annual Resource Allocation and Management Program (RAMP) provides data used in the planning and budgeting processes for Illinois public universities and community colleges. Chapter VII presents staffing and financial data that have been obtained from the FY1995 RAMP.

IBHE Faculty Credit Hour Study. The Illinois Board of Higher Education's annual Faculty Credit Hour Study is a detailed analysis of public university faculty and administrative assignments for each academic discipline by level of instruction. Tables derived from the FY1993 study contribute to the staff data presented in Chapter VII.

IPEDS Institutional Characteristics Survey. Chapter VIII of the *Data Book* presents information about annual tuition, fees, and room and board charges at Illinois public and private institutions. These data are derived from the fall 1993 IPEDS Institutional Characteristics Survey.

IBHE Student Financial Aid Survey. The Illinois Board of Higher Education's annual Student Financial Aid Survey collects data on student financial aid from all institutions that participate in the major federal and state student financial aid programs. Chapter IX summarizes FY1993 data from this survey.

IBHE Discipline Unit Cost Study. The Board's annual Discipline Unit Cost Study provides a detailed analysis of costs for instruction, organized research, and public service activities at each Illinois public university. Data from the FY1993 study contribute to several tables appearing in Chapter X of the *Data Book*.

IPEDS Finance Survey. Chapter X of the *Data Book* presents summarized data from the FY1993 IPEDS Finance Survey. This survey provides data on current fund revenues by source and expenditures by function at Illinois public and private institutions.

Chapter I

CURRENT ENROLLMENT DATA

This chapter presents data on headcount enrollments in Illinois colleges and universities for fall 1993. The data are from the Illinois Board of Higher Education's annual Fall Enrollment Survey.

Headcount

Table I-1 summarizes headcount enrollments at public universities, community colleges, and private institutions by attendance status (full-time vs. part-time), gender, location of instruction (exclusively off-campus), and level of instruction.

Table I-2 provides headcount enrollments by location of instruction, level of instruction, and attendance status for each public university.

Table I-3 provides headcount enrollments by location of instruction, type of instruction, and attendance status for each public community college.

Table I-4 provides headcount enrollments by location of instruction, level of instruction, and attendance status for each private institution.

Tables I-5, I-6, and I-7 provide headcount enrollments by class level for public universities, public community colleges, and private institutions, respectively.

ENROLLMENT DEFINITIONS

Baccalaureate-Transfer

Student academic program majors at public community colleges which include approved transfer, college parallel, liberal arts and science, and baccalaureate-oriented programs that are classified under the National Center for Higher Education Management Systems (NCHEMS) Program Classification Structure (PCS) code 1.1.

Community College Enrollment

Community college enrollments are divided into the following three categories:

Continuing Education - Students enrolled in General Studies (NCHEMS PCS code 1.5) and Vocational Skills (NCHEMS PCS code 1.6) programs and students enrolled on a course basis.

Pre-Collegiate - Students enrolled in Adult Basic Education (NCHEMS PCS code 1.7), Adult Secondary Education (NCHEMS PCS code 1.8), and Remedial/Developmental (NCHEMS PCS code 1.4) programs.

Undergraduate - Students enrolled in Baccalaureate-Transfer (NCHEMS PCS code 1.1), Occupational (NCHEMS PCS code 1.2), and General Associate (NCHEMS PCS code 1.0) programs, but excluding students enrolled on a course basis.

Degree Credit Enrollment

The number of students who have been admitted to a general or a specific course of study or program at the completion of which a degree/diploma/certificate is awarded by the institution. A certificate does not signify simply the completion of the courses of study through attendance, but rather indicates the completion of an organized curriculum and the achievement of competence in that curriculum. Students who have not yet declared a major (that is, indicated the specific program they will follow) but have taken and/or are presently enrolled in courses and activities attempted and completed by degree/diploma/certificate students also are included in this category.

First-Professional

Courses leading wholly or principally to a professional degree in dentistry, law, medicine, optometry, osteopathic medicine, podiatry, theology, or veterinary medicine. Ordinarily, these programs require at least two academic years of previous college work for entrance and require a total of at least six academic years of college work for completion.

Freshman

Institutionally defined. Normally, a student who has completed fewer than 30 semester hours (45 quarter hours).

Full-Time

Students taking 15 or more semester hours during the term. A student's entire academic load in terms of course work or other activity (such as thesis, research, or required teaching) is counted. Institutions not on a semester or quarter system report students taking at least three-quarters of the institutionally defined normal full-time load as full-time students. Time spent by teaching fellows is included only if such teaching is performed as a requirement for a degree, diploma, or certificate. Employment that is not a part of the prescribed activity for a professional degree or time spent on work required because of lack of undergraduate background is not counted as time spent on academic requirements.

General Associate

Students who have enrolled in a general associate degree curriculum classified under NCHEMS PCS code 1.0. This curriculum is individually designed by mutual agreement between the student and his/her advisor to meet the student's educational intent.

Graduate I Student

A student holding a *bona fide* bachelor's degree who has been admitted to the graduate division as a candidate for a master's degree, an advanced degree, or a certificate.

Graduate II Student

A student holding a *bona fide* master's degree or advanced degree or certificate beyond the master's degree, who has been admitted to a doctoral program. Also, a student holding a *bona fide* bachelor's degree who has been admitted to a doctoral program and who has attained at least thirty semester hours toward the doctoral degree. Graduate II students can exist only in programs for which the institution offers a doctoral degree.

Headcount

The unduplicated number of individuals enrolled in a term.

In-District

Public community college students who live within the community college district and who attend the community college within that district.

Junior

Institutionally defined. Normally, those students who have completed fewer than 90 semester hours (135 quarter hours) but at least 60 semester hours (90 quarter hours).

Occupational

Student program majors at public community colleges in approved programs that provide job training, retraining, and/or upgrading of employment skills and that are classified under NCHEMS PCS code 1.2.

Off-Campus

Students who are enrolled exclusively for coursework in other than on-campus facilities.

On-Campus

Students who are enrolled for any coursework in on-campus facilities.

Other Studies

Student program majors at the public community colleges which include General Studies, Remedial/Developmental Education, and Vocational Skills. These program majors are defined as follows:

General Studies - A course sequence leading to a certificate in one of the approved general studies areas with the NCHEMS PCS code 1.5: personal development; homemaking; improving family circumstances; intellectual and cultural studies; health-safety environment; and community and civil development.

Remedial/Developmental - A course sequence leading to a certificate in one of the approved basic skills development areas in mathematics, reading, and English for adults and for helping individuals acquire other educational skills and knowledge necessary for pursuing other educational offerings at the community college; NCHEMS PCS code 1.4.

Vocational Skills - A course sequence leading to a certificate in one of the approved vocational skills areas in retraining, upgrading or advancement in a specific occupation or groups of occupations; NCHEMS PCS code 1.6.

Out-of-District

Students attending a community college whose residence is not within the boundaries of the community college district but is within the state of Illinois.

Part-Time

Students taking fewer than 15 semester hours during the term. Institutions not on a semester or quarter system report part-time students as those taking less than three-quarters of the institutionally defined normal load.

Senior

Institutionally defined. Normally, those students who have completed 90 or more semester hours (135 quarter hours) but have not received the bachelor's degree in the program major in which they are enrolled.

Sophomore

Institutionally defined. Normally, those students who have completed at least 30 semester hours (45 quarter hours) but have completed fewer than 60 semester hours (90 quarter hours). Also, those students without a previous degree who have completed more than 60 semester hours and are continuing to pursue an associate degree.

Unclassified Graduate

Students who hold a bachelor's degree or equivalent, who have been officially enrolled in the graduate college, school, or division, and who are taking professional or graduate courses but are not working toward a degree.

Unclassified Undergraduate

Students enrolled in degree credit courses who (a) are not pursuing an associate, bachelor's, or higher degree, or (b) do not fulfill minimum requirements for entrance as regular students. This category includes transfer and other students whose transcripts have not been completely reviewed and who therefore cannot be classified by class level. Also included at the undergraduate level are students who already have a bachelor's degree or award below the baccalaureate but who are taking courses at the same level or lower, and teachers taking additional undergraduate courses for certification.

Undergraduate

Those students who are at the freshman, sophomore, junior, or senior levels and the portion of unclassified students who have enrolled as undergraduates.

Chapter II

STUDENT CHARACTERISTICS DATA

Chapter II presents student demographic data by gender, level of instruction, attendance status, age, race or national origin, and residence of students enrolled in Illinois colleges and universities. Data for this chapter are from the Illinois Board of Higher Education's 1993 Fall Enrollment Survey.

Gender

Table II-1 presents headcount enrollments by gender by level of instruction for each Illinois public and private institution.

Attendance Status

Table II-2 presents headcount enrollments by attendance status (full-time vs. part-time) and level of instruction for each Illinois public and private institution.

Age

Tables II-3 and II-4 present age distributions of Illinois students by type of institution. Table II-3 presents age distribution by level (by category, for community colleges), while Table II-4 presents the distribution of age by gender for undergraduate and graduate students.

Tables II-5 and II-6 present age distributions by attendance status by type of institution for undergraduate and graduate students, respectively. Community college data are subdivided by category.

Table II-7 presents average age of students by gender and level of instruction for each Illinois institution.

Race or National Origin Data

Tables II-8 and II-9 present enrollments by race or national origin category for Illinois institutions. Table II-8 provides aggregate data by type of institution, while Table II-9 provides race or national origin by level of instruction and by type of institution.

Residency

Table II-10 presents the home state of first-time freshmen enrolled in Illinois institutions by type of institution.

STUDENT CHARACTERISTICS DEFINITIONS

Definitions from Chapter I also apply to this chapter. Additional definitions for new data elements presented in this chapter are as follows:

Age

The chronological age of students as of the last day for which fall term registrations or withdrawals are allowed without penalty (normally the tenth day of the term).

Entering Students

The number of students at the indicated student level who enrolled for the first time at the reporting institution in the fall term. Also included are students enrolled in the fall term who attended the institution at the indicated student level for the first time in the previous summer term.

First-Time Freshmen

Those students enrolling in the reporting institution during the fall term who have not previously attended any college. Also included are students enrolled in the fall term who attended college for the first time the previous summer and students who entered with advanced standing (college credits earned before graduation from high school) at the freshman level.

Foreign Residents

Students who were legally domiciled in a country other than the United States of America at the time of first admission to the institution.

In-State Residents

Students who were legally domiciled in Illinois at the time of first admission to the institution.

Out-of-State Residents

Students who were legally domiciled outside Illinois but within the United States of America and its possessions at the time of the first admission to the institution.

Race or National Origin

Racial/ethnic designations do not denote scientific definitions of anthropological origins. For the purpose of this report, a student may be included in the group to which he or she appears to belong, identifies with, or is regarded in the community as belonging.

Race or National Origin (Continued)

The definitions for these categories are:

Non-Resident Alien - A person who is not a citizen of the United States of America and who is in this country on a temporary basis and does not have the right to remain indefinitely.

Black, Non-Hispanic - A person having origins in any of the black racial groups of Africa.

American Indian or Alaskan Native - A person having origins in any of the original peoples of North America, and who maintains cultural identification through tribal affiliation or community recognition.

Asian or Pacific Islander - A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian Subcontinent, or the Pacific Islands. This area includes, for example, China, Japan, Korea, the Philippine Islands, American Samoa, India, and Vietnam.

Hispanic - A person of Mexican, Puerto Rican, Cuban, Central or South American, or other Spanish culture of origin, regardless of race.

White, Non-Hispanic - A person having origins in any of the original peoples of Europe, North Africa, or the Middle East.

Chapter III

ENROLLMENT TREND DATA

This chapter presents statewide enrollment trends by sector and by individual institution, across several years and levels of instruction. Trends in nationwide total enrollment are also provided.

Headcount

Table III-l presents total U.S. headcount enrollments for the years 1951-1992 and Illinois headcount enrollments for 1951-1993.

Figure III-l presents Illinois headcount enrollments for 1951-1993 graphically.

Table III-2 presents total headcount enrollments at each Illinois institution for selected years beginning with fall 1975.

Chapter IV

ACADEMIC PROGRAM ENROLLMENTS IN PUBLIC UNIVERSITIES

This chapter, compiled from Table 02 of the 1993 Illinois Board of Higher Education's annual Fall Enrollment Survey, presents enrollments by discipline for public universities. This is the twelfth year that program enrollment data have been collected using the National Center for Education Statistics (NCES) Classification of Instructional Programs (CIP) taxonomy.

Detailed Academic Program Enrollment Data

Table IV-1 presents undergraduate academic program enrollments by institution for public universities. Associate and certificate program enrollments are included in this table.

Table IV-2 presents Graduate I and Professional enrollments by discipline. Unclassified graduate students are included; medical residents are not.

Table IV-3 presents Graduate II enrollments by discipline.

Academic Program Enrollment Summary

Table IV-4 summarizes total enrollments by two-digit CIP discipline codes for each public university.

TRANSFER DATA

This chapter presents data on transfers for the fall 1993 term. The data are from the Illinois Board of Higher Education's annual Fall Enrollment Survey.

Student Transfer Patterns

Table V-1 presents the number of student transfers among public universities, community colleges, private not-for-profit colleges and universities, and proprietary institutions. Transfers among these various sectors of higher education are shown by racial or national origin and gender.

Chapter VI

DEGREES CONFERRED DATA

This chapter presents the number and type of degrees conferred by Illinois colleges and universities during fiscal year 1993. The data are collected through the Illinois Board of Higher Education's Degrees Conferred Survey, Table Z.

This chapter, compiled from Table Z of the 1993 Illinois Board of Higher Education's annual Fall Enrollment Survey, presents degrees by type of institution, level of instruction, discipline, race or national origin, and gender. This is the twelfth year that program degree data have been collected using the National Center for Education Statistics (NCES) Classification of Instructional Programs (CIP) taxonomy.

Number of Degrees Conferred by Illinois Institutions

Table VI-1 presents a summary of all degrees conferred by Illinois colleges and universities from 1990-91 to 1992-93.

Table VI-2 presents the number of associate, less than four year certificates, bachelor's, master's, doctoral, and first professional degrees conferred by Illinois colleges and universities from 1990-91 to 1992-93.

Number of Degrees by Academic Discipline for Selected Years

Tables VI-3, VI-4, and VI-5 present summary data by two-digit CIP discipline code showing the number of degrees conferred for selected years beginning with 1972-73 at the baccalaureate, master's, and doctoral levels, respectively. Table VI-6 presents first professional degrees by two-digit CIP code and provides four-digit breakdowns for the health professions. Tables VI-7 and VI-8 present associate degrees and less than four year certificates by two-digit CIP code.

Degrees in Various Fields of Study by Institutional Control, Gender and Race

Table VI-9 presents the number and percent of degrees conferred by Illinois colleges and universities by field of study, type of institution, and level in 1992-93. Table VI-10 breaks out these data by field of study, gender, and level. Table VI-11 presents degrees conferred by field of study, race, and level. Table VI-12 presents degrees by level, institution, race or national origin, and gender.

Chapter VII

STAFF DATA

This chapter summarizes data on faculty and staff at Illinois public and private colleges and universities. The data are from the Resource Allocation and Management Program (RAMP), Integrated Postsecondary Education Data System (IPEDS) Survey of Salaries of Full-Time Instructional Faculty, and the Illinois Board of Higher Education's annual Faculty Credit-Hour Study.

Staff Earnings, Levels

Table VII-1 presents state-appropriated staff earnings for public university employees at each university by type of employee.

Table VII-2 presents staffing levels in Illinois public universities in staff years by staff classification and fund source.

Gender, Rank and Salary

Table VII-3 presents number and gender of full-time faculty by rank at each Illinois public university.

Table VII-4 presents average salary of full-time faculty at each public university by gender and rank.

Table VII-5 presents the percentage of tenured full-time faculty at each public university by gender and rank.

Table VII-6 presents number and gender of full-time faculty with average salary at each public community college.

Table VII-7 presents number and average salary of full-time faculty at each private institution by rank.

Faculty Assignments, Load

Table VII-8 presents staff year faculty assignments at each public university by instructional activity and level of instruction.

Table VII-9 presents statewide student credit hours per staff year in Illinois public universities by discipline and level.

DEFINITIONS FOR STAFF DATA

Administrative and Other Professional Staff

Includes executive, administrative, and managerial positions that require primary responsibility for organizing, planning, and directing the institution and its subdivisions. Included in Tables VII-I and VII-2 are professional staff who are non-Civil Service employees with primary responsibility in noninstructional areas.

Appropriated Funds

Those fund sources from which expenditures cannot be made without specific prior authorization by the General Assembly and the Governor.

Civil Service

Includes those employees having Civil Service appointments who are exempt from the Fair Labor Standards Act, those employees whose wages are based on the prevailing wage in the geographic vicinity of the university, those employees whose pay is negotiated (usually through a union collective bargaining agent), and all other employees who cannot be classified as faculty, administrative or other professional staff or student employees.

Faculty

Those persons holding academic rank who have departmental assignments in instruction, organized research, and public service. Academic department heads are included, as are graduate students who receive remuneration for performing services that are classified as instructional or professional.

Full-Time Faculty

Institutionally defined.

Instructional Activity

Direct Instruction - Those activities which apply to time and energy expended in face-to-face contact with students in a classroom, e.g., a lecture, laboratory, quiz, or discussion group. Also included is instruction on an individual basis (e.g., supervision of theses and honors reading), which may occur in a staff member's office, and instruction via correspondence.

Indirect Instruction - Those instructional activities related to other than direct instruction including:

a) paper grading,
b) course supervision,
c) academic advising (other than in an organized unit).

Departmental Research - Those research activities carried on with the institution's regular funds and carried on without specific sponsorship.

Departmental Overheads - Those administrative activities carried out in support of the efficient operation of the department.

Primary Functions

Instruction - Those activities which produce outputs eligible for credit in meeting degree or certificate requirements.

Organized Research - All research-related activities established within an institution under terms of an agreement with agencies external to an institution or separately budgeted and conducted with internal funds.

Public Service - Those programs which produce outcomes directed toward the benefit of the community or individuals within the geographical service area of the institution.

Staff Year

A measure of staff effort over a 12 month period. For professional and administrative personnel, a staff year is defined as the equivalent of a one year, full-time position (including vacation). For faculty, a staff year is the equivalent of a full-time teaching load (as institutionally defined) for 12 months including one month vacation.

Student Employees

Those students enrolled at the institution who receive remuneration for performing services that are classified as other than executive, professional, and instructional. Such employment is usually considered a form of student financial assistance.

Chapter VIII

STUDENT COST DATA

This chapter provides information from the U. S. Department of Education's Integrated Postsecondary Education Data Systems (IPEDS) Institutional Characteristics Survey concerning student charges at all Illinois colleges and universities. Charges were effective as of the fall 1993 term.

Annual Tuition and Fees

Table VIII-1 displays annual tuition and mandatory fees for full-time undergraduate and graduate students at each Illinois college and university. Figures represent in-state charges only for public universities.

Table VIII-2 presents annual tuition and fee charges for full-time professional students enrolled in selected areas of study at those Illinois colleges and universities offering first professional degree programs.

Table VIII-3 presents student charges per credit hour for tuition and fees and total annual tuition and fees at Illinois public community colleges during the academic year 1993-94.

Room and Board Charges

Table VIII-4 summarizes annual charges for room and board at each public and private college and university in Illinois.

Chapter X

FINANCIAL DATA

This chapter presents financial trend data for higher education operations and grants programs and for capital improvements.

Summary of Historical Appropriations

Table X-1 provides an historical summary of annual state operating appropriations to higher education from FY1989 to FY1994.

Detailed Appropriation Trends

Tables X-2 to X-5 detail annual state appropriations from FY1989 to FY1994. Table X-2 presents appropriations to community colleges and Table X-3 presents appropriations to the Illinois Student Assistance Commission. Table X-4 shows trends in state appropriations for health education grants to private institutions. Table X-5 provides detailed data on state appropriations for the State Universities Retirement System.

Table X-6 presents three-year trend information showing state appropriations to public universities by source of funds and institution for FY1992 to FY1994.

Revenues

Table X-7 presents total audited revenues for Illinois public community colleges for FY1990 to FY1993.

Table X-8 details current fund revenues by source at Illinois colleges and universities for FY1993.

Expenditures

Tables X-9 details current fund expenditures by function at Illinois colleges and universities for FY1993 and Table X-10 breaks down annual audited expenditures for Illinois community colleges from FY1990 to FY1993.

Tables X-11 provides instructional costs per credit-hour by student level at Illinois public universities for FY1993. Table X-12 provides instructional costs per credit-hour by discipline and level for FY1993.

Capital

Table X-13 presents new state appropriations for capital improvements in public higher education by funding source for FY1992, FY1993, and FY1994.
